

## Datasheet Tube Clips

ACE-DS-Tube Clips-v01-en

Issued : 19.08.2020

The ACE Tube Clips are a flexible and simple solution to intercept and bundle small cable protection tubes (microtubes) from 7 to 14 mm.

These can be easily inserted into a commercially available C-rail and also be clicked in afterwards and serve as practical and modular brackets for cable protection tubes (micro tubes) or fiber optic cables.

The ACE Tube Clips are available in sizes 7 mm, 10 mm, 12 mm and 14 mm and can be flexibly mounted on and next to each other in width and height, thus forming a stable holding block for cable protection tube or fiber optic cable.

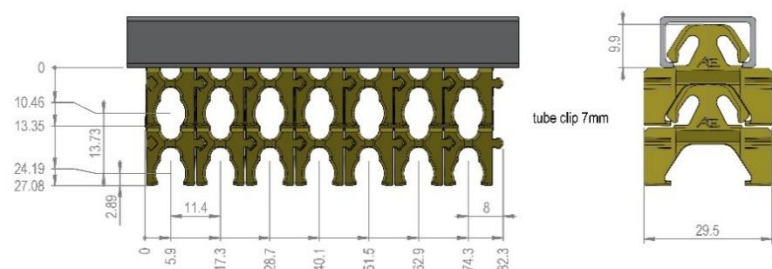

From the size 10 mm, the Tube Clip offers a cable tie function, with which the cable protection tube or fiber optic cable can be additionally attached by cable tie in the clip.

### Product specification

Sizes:	7 mm	10 mm	12 mm	14 mm
Article nr.:	510700	510701	510702	510703
Color:	Yellow	Blue	Orange	Purple
Cable tie function:	No	Yes	Yes	Yes
Nr. of pieces per delivery:	50	50	50	50

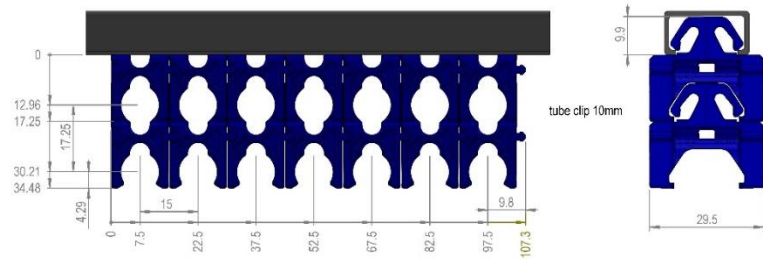

### Dimensions

Sizes:	7 mm
Article:	510700
Color:	Yellow
Grid dimension width:	11.4 mm
Grid dimension height:	13.73 mm

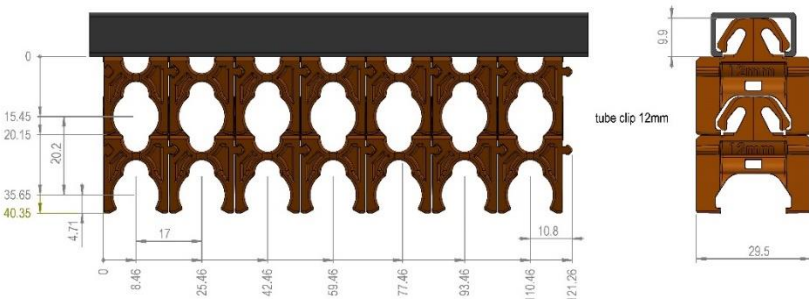

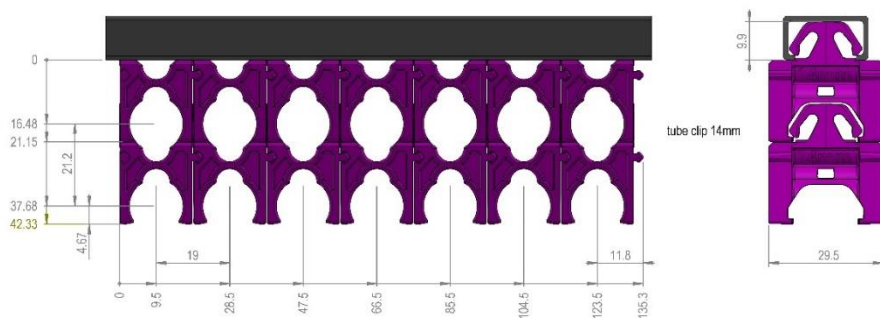

Sizes:	10 mm
Article:	510701
Color:	Blue
Grid dimension width:	15 mm
Grid dimension height:	17.25 mm

Sizes:	12 mm
Article:	510702
Color:	Orange
Grid dimension width:	17 mm
Grid dimension height:	20.2 mm

Sizes:	14 mm
Article:	510703
Color:	Purple
Grid dimension width:	19 mm
Grid dimension height:	21.2 mm

## Mechanical specification

Material  
Fire behaviour according to UL94-V0

PP UL94 V-0

The factors given for flame retardancy and fire safety are described in class V0. (Self-extinguishing up to 10 seconds at the latest, burning drops are not allowed, after-glow a maximum of 30 seconds.)

## Delivery

Delivery takes place in a packaging unit  
up to 50 pieces each in a plastic bag
