

## FYO2PMU 2x1.2

### FTTH-drop cable

#### APPLICATION

Optical fibre cable for Fibre-to-the Home (FTTH) drop applications by direct burial or duct installations. Suitable for installations by ploughing, pulling or air blowing. Especially for connecting one family house to optical access network. Central tube construction, Spiral Space® design, for max 12 fibres. Extra high crush strength.

#### CONSTRUCTION

Optical fibre	Coloured optical single-mode fibres
Secondary coating	A plastic core with a jelly-filled helical channel for the fibres, Spiral Space® design
Wrapping	The cable core is surrounded with water-blocking elements
Strength members	Two high tensile strength steel wires in the outer sheath, steel wire diameter 1.2 mm
Outer sheath	The cable sheath consists of UV resistant black polyethylene compound, nominal thickness 1.5 mm

#### PROPERTIES

Temperature range	-45 ... +70 °C
Transport, storage, operation	-15 ... +70 °C
Installation	5000 N/100 mm
Crush strength
