## 2 Prepare Receiver Box for installation

### Before installation of the Receiver Box

Find a suitable location near to the boiler. Leave at least 30cm distance from any metal objects including wallboxes and boiler housing.

Loosen the front screw to remove cover or tighten it when the cover is back in place.

### Needed during installation:

- Cable with 2 wires from the boiler to Receiver Box.
- The Receiver Box requires 230V power

## 4 Install the Lyric T6R thermostat

Choose the appropriate plug.  
Place the thermostat on an even, horizontal surface and plug it in.

## 1 Turn OFF the power and remove the old thermostat

To ensure your safety, **always make sure mains power is switched OFF** before accessing wiring.

In case of removing the old thermostat be aware that the **existing wiring will no longer be used**.

The T6R thermostat should not be placed near draughts, in direct sunlight or near heat sources.

**WEEE Directive 2012/19/EC Waste Electrical and Electronic Equipment directive**
