

Pacific LED Green Parking

WT460E MDUH-CS IP65

Movement detection unit holder for ceiling sensor

The ceiling mounted WT460E MDU-CS OS Wireless Multi Sensor is designed for use with the Pacific LED Green Parking solution to provide a detection coverage area of 20 to 25 m². Due to its highly reliable battery pack, it can be placed anywhere inside the parking garage, without the need for additional wiring, to provide detection coverage where it is required. Ideal for placement at exits and entrances.
