Make socket auto start thermostat control according setting schedule.

Technical Specification:

Model	SimPal-TY130
Product size	120*60*40 mm (EU plug)
WiFi protocol	802.11 b/g/n 2.4G only
Plug and Socket type	Germany, French, UK, US available
Power input	AC 110~250V
Temperature sensor range	-10°C~100°C
Indicator	Blue and RED
Max power loading	16A/3500W
Standby power consumption	25mA
Temperature sensor cable length	2 Meters

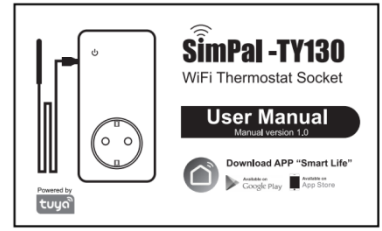

- Packing content:

WiFi Socket (1 pcs)

Temperature sensor
(1 pcs)

User manual
(1 pcs)
