

Ørstafundament c/c 160 mm, H750 mm

The foundation is delivered CombiCoat®-treated (hot-dip galvanized and powder coated) in accordance with the Norwegian Public Roads Administration's recommendations in Manual R310 point 5.3.6.

The foundation has a two-sided 76 mm cable entry. The bolts are replaceable, and the mast foot plate will cover the foundation top.

TIGHTENING TORQUE NUTS:

After the light mast has been mounted on the foundation, the nuts must be tightened with a torque at a minimum of 200 Nm.

Technical info

Art. no	3530160C
El. no	3640427
GTIN	7052250002641
Top coat	CombiCoat®
C/C bolts	160 mm
Height	750 mm
Material	Steel
Dimention	M20
Weigth	18 kg
Material quality	S235
CE approved	Yes
In stock	Yes
