

# **Product Data Sheet**

## GW44406

44 CE Range

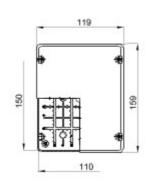

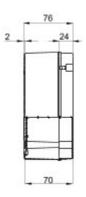

Range 44 CE - Surface-mounting waterthight junction boxes in compilance with EN 60670-1 (CEI 23-48) and IEC 60670-22 (CEI 23-94) and made in high-performance technopolymers. The range includes versions with protection degree IP44, IP55, IP56 with smooth walls or with quick entry cable glands and different type of covers: blind / transpiration of the covers: blind / transpiration of the covers blind / transpiration of the covers of t different self-extinguishing materials (up to GWT 960 °C). Suitable for ordinary junctions, for special uses, and for industrial uses.

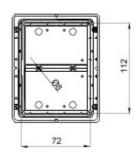

| Insulation class          | II (according to IEC 61140 standards)      | Colour                               | Grey RAL 7035             |
|---------------------------|--|--------------------------------------|---------------------------|
| IP degree                 | IP56                                       | Material                             | Technopolymer GWPLAST 120 |
| Mechanical resistance     | IK08                                       | Internal dim. LxHxD (mm)             | 150x110x70                |
| Max Ø holes possible      | 29 mm                                      | Lid screws (no. and type)            | 4 - Stainless steel       |
| Application               | Industrial uses                            | Glow Wire Test                       | 650 °C                    |
| Lid                       | Plain screwed                              | Operating temperature                | -25 +60 °C                |
| Type of material          | Halogen-free in compliance with EN 60754-2 | Electrocod                           | 02211                     |
| Thermo-pressure with ball | 110 °C                                     | Torque screws tightening             | 1.2 Newton/meter          |
| Walls                     | Smooth                                     | Accessories for insulation restoring | GW44622                   |

| BEHAVIOUR WITH CHEMICAL AND ATMOSPHERIC AGENTS |                  |                                      |                  |                                      |                                      |                  |                  |                                      |                                      |                                      |  |  |
|--|------------------|--------------------------------------|------------------|--------------------------------------|--------------------------------------|------------------|------------------|--------------------------------------|--------------------------------------|--------------------------------------|--|--|
| Saline<br>solution                             | Acids            |                                      | Bases            |                                      | Solvents                             |                  |                  | Mineral                              | UV                                   |                                      |  |  |
|  | Concentrated     | Diluited                             | Concentrated     | Diluited                             | Hexane                               | Benzol           | Acetone          | Alcohol                              | oil                                  | rays                                 |  |  |
| Resistant                                      | Not<br>resistant | L <mark>imite</mark> d<br>resistance | Not<br>resistant | L <mark>imite</mark> d<br>resistance | L <mark>imite</mark> d<br>resistance | Not<br>resistant | Not<br>resistant | L <mark>imite</mark> d<br>resistance | L <mark>imite</mark> d<br>resistance | L <mark>imite</mark> d<br>resistance |  |  |
