

Flush – slim and elegant wall fitting

Description

Flush is a slim wall fitting, only 60 mm out from the wall. The fitting gives an efficient and decorative light effect to the side and on to the wall. The body and the front is made of steel, powder painted in white RAL 9010 with an opal acrylic diffuser behind the front décor. Flush is ideal in use together with Ellipsis (see Interior-Fluorescent lamps).

Application areas

Corridors, entrances and as additional lighting in various application areas.

Mounting/ Installation

2 cable entrances in the centre of the back plate. Push-in terminal block 3x2x2,5mm².
