

Zeta –T5-IP44 - a safe solution

Description

Zeta T5 IP44 is a recessed fitting for T-profile or plaster ceilings. The fitting is made of steel, powder painted in white RAL 9010. The double parabolic reflector raster with chromed décor lists and perforated middle pieces is made of anodized aluminium. The reflector is covered with a transparent polycarbonate plate. Zeta is easy to mount, delivered complete with light sources, 830 colour, and 2,8m cable and plug.

Application areas

Commercial kitchen, fresh food departments in stores, food industry, day care facilities etc..

Mounting

Zeta can be placed direct into the T-profile ceiling. For mounting in plaster ceilings fixing brackets (set) are available as accessories.

Others

Zeta is also available in a IP20 T5 version, also for dimming.
