

Technical data

Voltage	220-240 VAC 50/60 Hz
System effect	11W
Light source	LED, max. 55 mm high
Exterior dimension / dimension	Ø65 mm, L: 105 mm, H: 170 mm
Cable length	145 cm
Tilt angle	180° vertically, 360° horizontally
Possibility of through wiring	No
IP-class	IP65
Insulation class	Class I
Material	Aluminium, plastic, glass
Environment	Indoor and outdoor
Warranty	3 years
Approvals	CE

Product information

- Cable, 145 cm
- Ready to use with plug for the main supply

Item no.	EAN no.	Colour
96411090	5704629004924	matt black

NB: Always use cables of a type approved for permanent installation according to the current legislation. If the cables are in contact with the lamp cover, use cables with an operating temperature of at least 70° C.
