

## Marking pole KSPS 8

Marking pole KSPS 8 is made of strong steel and equipped with signal marking and reflective tape.

Easy to install on all Kabeldon outdoor enclosures with rivetnuts contained in the gable of enclosures.

KSPS 8 complements the already available KSPS 7, but as a longer version.

### Use

KSPS 8 is to be mounted on enclosures outdoor for being able to mark them, protect them and make them visible. For example – to find enclosures in darkness or at winter under snow drifts.

KSPS 8 is delivered complete with two bolts.

KSPS

Designation	ID number	Dimension			Number per kit	Weight kg/pcs
		H	B	D		
		mm				
KSPS 8	2CGX0 63190147	1650	30	30	1	3,3
KSPS 7 <sup>1)</sup>	2CGX0 63190146	1120	30	30	1	2

<sup>1)</sup> Already available.

Mounting mark pole KSPS on an enclosure.
