

3M™ SecureFit™ 3700 OTG Series

Get over-the-glass protection with all day wearability with the 3M™ SecureFit™ 3700 Series. Featuring Pressure Diffusion Temple (PDT) Technology and adjustable ratchet temples, the SecureFit 3700 Series offers over-the-glass protection with a personalised fit.

Adjustable Ratchet Temples
Multiple position ratchet allows user to adjust lens for facial features and eyeglass position.

Pressure Diffusion Temple (PDT) Technology
3M patented technology that helps diffuse pressure over the ear for a secure, comfortable fit.

Brow Guard
Contoured brow guard rests comfortably against forehead and helps provide additional coverage from particles (selected models).

Polycarbonate Lenses
▶ Absorb 99.9% of UVA and UVB rays.
▶ Meet the requirements of EN166:2001 Standard as an Impact Rated Spectacle.

Two Coating Options (Model Dependent):
Anti-Scratch Coating
▶ Many prescription eyeglasses do not have anti-fog coating on the lenses, therefore some workers may prefer our less expensive standard anti-scratch coating.
3M™ Scotchgard™ Anti-Fog Coating
▶ Scotchgard™ Anti-Fog Coating resists fogging longer than traditional anti-fog coatings, up to 25 washes with water*.
▶ Helps provide durable scratch resistance in tough work environments.

*3M internal testing per EN168 test method when compared with traditional anti-fog coatings.

Available Models: Designed with options.

SF3701ASP-BLU
Lens: Clear
Frame Colour: Blue/Blue

SF3701SGAF-BLU
Lens: Clear

IMPORTANT NOTICE

The use of the 3M product described within this document assumes that the user has previous experience of this type of product and that it will be used by a competent professional. Before any use of this product it is recommended to complete some trials to validate the performance of the product within its expected application.

All information and specification details contained within this document are inherent to this specific 3M product and would not be applied to other products or environment. Any action or usage of this product made in violation of this document is at the risk of the user.

Compliance to the information and specification relative to the 3M product contained within this document does not exempt the user from compliance with additional guidelines (safety rules, procedures). Compliance to operational requirements especially in respect to the environment and usage of tools with this product must be observed. The 3M group (which cannot verify or control those elements) would not be held responsible for the consequences of any violation of these rules which remain external to its decision and control.

Warranty conditions for 3M products are determined with the sales contract documents and with the mandatory and applicable clause, excluding any other warranty or compensation.
