

MultiTask Surface Cleaner MultiClean™

- 70% High Purity Grade Isopropyl Alcohol (IPA) and 30% High Purity Deionized (D.I.) Water
- Purified D.I. water reduces evaporation rate for more effective cleaning
- Suitable for cleaning a variety of surfaces and the general working environment
- Removes solder paste, white residue, flux residues, uncured epoxy residues, light oils and grease
- Mild and not harmful to skin
- Wide spray pattern to maximize coverage
- Leaves no residue; ESD-safe

Product Information

MultiTask Surface Cleaner – *MultiClean*, provides fast and safe cleaning in almost any production environment. High purity IPA and D.I. water is well suited for cleaning medical devices, electronics, stencils, work benches, tools, production machinery, and any surface that requires hygienic grade cleaning.

This versatile cleaner effectively removes white residue from PCBs, as well as most solder pastes found on SMT stencils. It also cleans organic and ionic residues, light oils and other contaminants commonly found in the manufacture of medical devices. With excellent materials compatibility, it is both safe and easy to use.

Directions:

Hold can approximately 10-15cm away from substrate. Spray liberally over area or part to be cleaned. Wipe using a durable clean lint-free wipe.
