

# Wave Mini

## Smart Indoor Air Quality Monitor

### DOWNLOADS

Airthings Wave Mini is your indoor air quality companion, allowing you to visualize the health and comfort levels in every room. When a room's environment becomes less than optimal, Wave Mini will provide insights into the chemical and odor levels in your air. The Wave Mini is the perfect, cost-effective first step into understanding your indoor air quality, or a great addition to your existing Airthings air quality ecosystem. Air quality and temperature vary drastically from room to room and the only way to reach optimal comfort and health is to measure in every room.

### AIR QUALITY IN EVERY ROOM

Airthings Wave Mini is small in size but big in impact. The TVOC sensor monitors chemicals and odors in your air that can cause negative health effects, while additional sensors measure temperature and humidity. Keep an eye on the comfort levels and health in every room of your home with this compact and easy-to-use companion. Or use as a complement to the Wave Plus for the complete air quality picture.

### AIRTHINGS ECOSYSTEM

Airthings Wave Mini is in the Wave series family and part of the Airthings Ecosystem. A connection can be established through Bluetooth or Airthings SmartLink using the future Airthings Hub.

### FUNCTIONS

Sensors: TVOC, Temperature and Humidity  
 Visual feedback: Red/Yellow/Green glow indicator  
 Long battery life:  
   Bluetooth: > 2 years\*  
   SmartLink: > 3 years\*  
 Supports wall mounting or table stand  
 Free mobile app for iOS and Android  
 Free online dashboard  
 Mobile and web notifications  
 Wireless connection (Bluetooth or Airthings SmartLink)

### CHECK YOUR AIR QUALITY INSTANTLY

View current and historical levels in the free mobile app and online dashboard, or simply wave in front of the device to get visual feedback. These color codes are easy to understand, making it a device for all ages.

Green: Good. Air quality is good, breathe easy.  
 Yellow: Warning. Air quality is degrading.  
 Red: Danger. Air quality is not good, take action.

### EASY INSTALLATION

Simply place it on a flat surface using the stand or attach to the wall using a single screw, download the app, pull the battery tab, and follow instructions in the app.

### SPECIFICATIONS

Sensor sampling interval: 5 minutes  
 Sensor Resolution / Accuracy:  
   Temperature: 0.1 /  $\pm 1$  °C/F  
   Humidity: 1 /  $\pm 3$  %  
 Settling time:  
   TVOC ~7 days  
 Operational Environment: 4°C to 40°C, 39°F to 104°F  
 Power: 3 x AA alkaline batteries  
 Wireless: Bluetooth & SmartLink  
 \*33% increase in battery lifetime with Duracell Ultra Power and 66% with Duracell Ultra Lithium

### ADDITIONAL INFORMATION

#### PACKAGE CONTENT

Air Quality Detector  
 3 x AA batteries  
 Instruction Manual  
 Table stand

#### PACKAGE

Weight: 180g, 6.3oz  
 Dimensions: 105x105x45mm,  
 4.1x4.1x1.8in

#### DEVICE

Weight: 135g, 4.8oz  
 Dimensions: < 80x26mm,  
 3.14x1in

#### REQUIREMENTS

One of the 3 latest major versions of  
 iOS or Android supporting Bluetooth  
 4.2 or later  
 Or Hub with Airthings SmartLink
