

## TECHNICAL SPECIFICATIONS

### TYPE K PROBE

| Temperature range of sensible element | Temperature range of handle | Accuracy (@ 100°C) |
|---------------------------------------|-----------------------------|--------------------|
| -40 ÷ 800°C                           | -40 ÷ 105°C                 | ±2.2%rdg (IEC 584) |

- Protective sheath material: thermoplastic rubber
- Metal part length: 200mm
- Handle length: 105mm
- Spiral cable length: 1m
- Sensible element diameter: 1.5mm
