

## Kit NVR + 2 battery cameras GGM KITWIFI2CB

A CCTV kit without the need to power the cameras is now possible!

The GIGAMEDIA kit is composed of two battery-powered cameras and a recorder with 1 Tb storage.

Cameras with a resolution of 2MP are equipped with batteries so that they can be installed in isolated locations where no cables can be installed.

They can be installed outdoors and have a PIR sensor for motion detection recordings up to 10 m. The 2.8 mm lens allows a wide viewing angle of 120°.

Night vision has a range of 8 m.

It also has a microphone and a speaker for two-way communication via the smartphone.

The camera battery can be removed from the camera without disassembling the camera from its mounting bracket. This allows a quick intervention in the battery charging process. Each battery has an autonomy of 5 months\*.

This kit intended for small installations (individuals, small tertiary) allows to have a specific removal of doubt.

The Wi-Fi range of the cameras is given for a distance of 50 m\*\*. The recorder is capable of supporting up to 6 cameras (additional camera: GGM KITWIFICAMB).

The recording is only in detection\*\*\* when the camera is on battery. A 1 Tb hard drive is built into the kit.

The GGM VIEW app allows you to connect remotely via the smartphone and have a real-time removal of doubt.

\* Considering 10 video triggers for a duration of 10 seconds each.

\*\* Given as an indication, may vary depending on the environment of use and constraints on site that can alter the Wi-Fi signal.

\*\*\* It is possible to record continuously only if the battery is connected to an AC outlet continuously.

### Camera features:

- Sensor 1/2.7" Progressive CMOS
- Resolution: 2MP (1920 x 1080)
- Minimum illumination: 0.05 lx @ F1.2 (AGC ON); 0 lx with IR
- S/B: 40 dB
- Lens: 2.8 mm
- Angle of view: 120°(horizontal)
- Battery consumption: 420 mA (active); 400 µA (stand by)
- Working temperature: -30 °C to 55 °C

- IP rate IP66
- IR distance: 8 m, 100°, 850 nm
- PIR: 10 m, 115°
- Battery capacity: 2900 mA x 3
- Battery life cycle: environ 350

NVR features:

- Max channel: 6
- HDD: 1 Tb included (2.5" size)
- 1 SD card slot max 128 Gb
- Simultaneous view, playback, backup & remote monitoring
- Video output: HDMI up to 1080P
- Live display 1/4/6
- Record on motion
- motion détection: yes
- Recording schedule
- Codec: H264
- 1 x RJ-45 10/100 Mbps
- Max Bandwidth 32 Mbps
- Power supply 12 V DC / 2 A
- Mobile App GGM VIEW
