

Signalling Light BLK Super LED

Very light-intense optical signalling device
for indoor and outdoor application

Overview

Optical signalling is often required for warning or notifying purposes in particularly noisy areas. The BLK Super LED provides clearly visible signals even under intense extraneous light conditions.

The sturdy housing of ingress protection IP 65 is suitable for both indoor and outdoor applications. The signalling light is available in 5 different colours.

The die-cast aluminium housing is coated with weatherproof varnish and comprises a cooling element and a pressure compensation valve to prevent the formation of condensation water. The ribbed cap on top of the signalling light is made of impact-resistant plexiglass.

The signalling device is equipped with a M20 cable gland for cable diameters of 8-12 mm. It can be operated in 3 different operation modes (continuous, blinking and strobe light) and with 3 different light intensities (800 lm, 1200 or 2000 lm).

Features

- Ingress protection IP 65
- Compensation valve to prevent condensation water
- Robust aluminium housing
- Very bright LED technology
- Long lifecycle
- 3 different operating modes (continuous, blinking or strobe light)
- 3 different light intensities adjustable (800 lm, 1200 lm, 2000 lm)

Specifications

Housing	Seawater-resistant aluminium, weatherproof varnish with pressure compensation valve
Housing colour	Light grey
Cap	Plexiglass
Cap colour	Transparent, red, amber, green, blue
Ingress protection	IP 65 according to IEC 60529
Protection class	I
Cable glands	1x M20 for cables 8-12 mm (second cable gland is retrofittable)
Connection terminals	Terminal capacity: 2.5 mm ² single-wire 1.5 mm ² fine-wire
Operating conditions	Indoors and outdoors
Operating position	Any (preferably with cable entry facing downward)
Operating modes	Blinking light, strobe light, continuous light Operating mode and light intensityselectable with rotary switch
Weight	Approx. 1.4 kg

Operating modes

Pos. 0	2000 lm	Continuous light
Pos. 1	2000 lm	Blinking light 0.5 s/0.5 s
Pos. 2	2000 lm	Strobe light 7x 55 ms/18 ms/1 sec. pause
Pos. 3	1200 lm	Continuous light
Pos. 4	1200 lm	Blinking light 0.5 s/0.5 s
Pos. 5	1200 lm	Strobe light 7x 55 ms/18 ms/1 sec. pause
Pos. 6	800 lm	Continuous light
Pos. 7	800 lm	Blinking light 0.5 s/0.5 s
