

24 ports patch panel 0.5U (ID #25/48) with 24x NKJ CAT6A PoE+ shielded **GGM NKJS48PC6A05**

Category 6A 10G screened jacks are designed for a high level of performance and meet all requirement performance.

Due to special pin design, we are offering one of the most efficient keystone. The connectors contact design also provides enhanced plug-to-jack connection integrity providing the highest level of reliability.

Jacks are fully shielded to optimize protection from EMI including Alien Crosstalk and has been specifically engineered with enhanced cable and connector performance designed to support the latest 10 Gb/s Ethernet requirements.

Like all our keystone, it pass successfully all compliance test, CAT6A component level and PoE+ compliance approved by 3rd party testing.

By using our CAT6A Shielded solid cable, it will exceed EN/ISO standards and keep offering a comfortable and easy mounting process.

Compatible with most of our accessories to match any jobs configuration.

Find out latest keystone jack included with our high density patch panel that will allow 24 port on 0.5U only !

New version with ID # from 25 to 48 !

Metal 0.5U panel

- Grounding kit included
- ID marking: #25 to #48
- Colour: metal
- High: 0.5U
- Exclusive for NKJ series only
- Port identification
- Removable rear management bar with fixing clips

Keystone Jack RJ45 (NKJSC6ATL24)

- Colour code: T568A/B
- Standards:
 - ANSI/TIA-568-C.2, CAT6A;
 - EN 50173:2007;
 - ISO/IEC 11801 2nd edition:2002
- Keystone jack, 28 mm depth only

- Impedance: 100 Ω
- AWG acceptance: 22 to 24 AWG
- No specific tool required
- 50 Ω gold pin
- Fully 360° shielded housing
