

High precision cleaver for 250 / 900 μm fiber optic **GGM CLEAV01**

This fibre optic cleaver combines ease of use and high-precision cutting.
A reliable solution for the implementation of fibre optic splices and pre-polished connectors.

- Compact and handy design
- High precision cleaving blade (16 positions)
- Metal tip
- Anti scratches body
- Blade life twice as long as that of a manual cleaver (50 000 cleaves)
- Fibre diameter: 125 μm
- Coating diameter: 250 to 900 μm
- Cleaving angle: 90° (+/- 0,5°)
- Cleaving length: 5 to 20 mm
- Dimensions: 58 x 55 x 48 mm
- Weight: 0,34 kg
