GGM COF15U500IP55V

NEW

Warning !
This picture does not show the exact color

Specially designed to meet (according to their classification) with the requirements of some premises (e.g.: industry, warehouse, parking...).

The IPBOX is characterized by the degree of protection it provides against dust (no harmful deposit) and against low-pressure water jets sprayed from any directions, according to IEC 60529.

- Available with safety glass door with metal frame or full metal door.
- Door with hot-poured polyurethane gasket.
- Two locking points to ensure uniform pressure of the door gasket on the cabinet frame.
- Key lock type ''butterfly button'' for better ergonomics handling.
- Cables entry plates (top and bottom) with hot-poured polyurethane gasket, screw fixing.
- Delivered with wall mounting brackets.
- A pole mounting bracket is also available (sold separately).

A very high-quality product, both in terms of design that finish.
It will meet the most stringent requirements.
