

Cable mounting tool For connectorization in strips and panels

Professional cable mounting tool specifically designed to reduce working times thanks an automated process of inserting the different pairs (after be located), and the cut of the residual cable, thus generating a high-quality connection.

This tool includes accessories that facilitate the cable insertion and extraction and can be used both for the connectorization in telephone strips as well as in data connectors and data patch panels.

Ref.	2174
Logical ref.	EWZ
EAN13	8424450021743

Packing

Box	1 pcs.
Carton	20 pcs.
Bucket	80 pcs.

Physical data

Net weight	120.00 g
Gross weight	120.00 g
Width	34.00 mm
Height	178.00 mm
Depth	21.00 mm
Main product weight	50.00 g

Highlights

- A single movement is enough to insert and cut the cable
- Equipped with a cable extractor for cables installed in telephone strips, patch panels and data connectors
- Sleeve included for easy transport
- Compatibility of use with:
 - Telephone strips (refs. 2172 y 2173)
 - Data connectors (ref. 209901)
 - Data patch panels (refs. 533180 y 533181)
