Empty surface mount box for Keystone, from 6 to 12 ports

GGM BOX612KV

This modular surface-mount box is dedicated to allow the installation of two keystone type modules. It has been designed to make the module replacement easier. This solution allows for quick network modernization without the need to replace the entire box. The box can be mounted on the wall with screws or double-sided self-adhesive foam.

- 6 port module included (x2)
- Rear cable management included
- 12 port could be used for CAT5e UTP/FTP and CAT6 UTP only
- Only 6 port solution with CAT6 FTP and CAT6A STP
- 170 x 112 x 38 mm
