

LTE / Mobile Broadband

Portable MiMo Antenna

DMM-7-27 Range

Supports MiMo & diversity across 2G /3G / 4G
Two omni-directional ultra wideband elements
Fold out feet for desk mounting
Optional suction mount

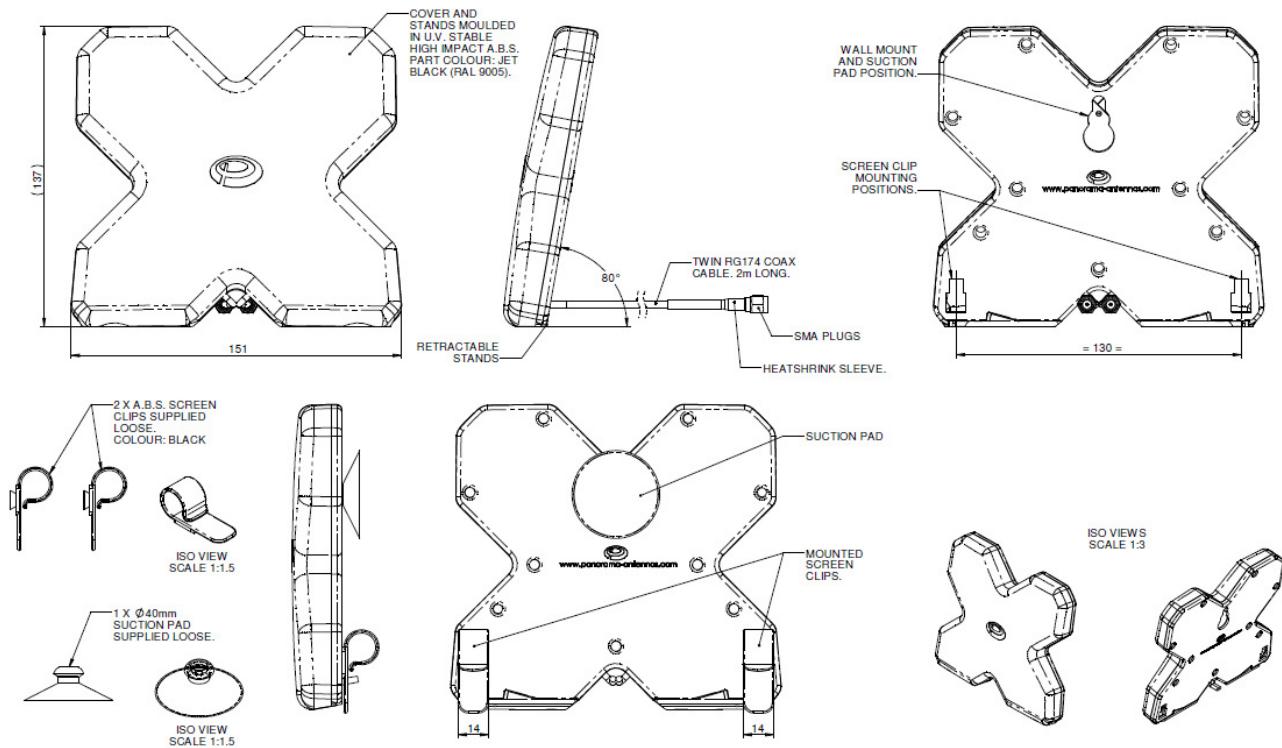

The DMM antenna provides an innovative and future proof solution for 2G / 3G and 4G networks. Incorporating two separately fed ultra wideband elements in a single housing the DMM is equipped to provide portable MiMo and diversity support for the networks of today and tomorrow.

The DMM is highly portable and features deskmount feet which fold out for use, and flat for transport. A handy suction window mount (DMM-7-27-2SP Variant) enables users to optimise their signal in multiple locations, with instant installation and easy removal.

The product is supplied with up to 2 metres of cable and a variety of adaptors are available.

The DMM is a cost effective value added product for network operators and service providers ensuring a stable link with improved data rates for subscribers thereby improving satisfaction and retention.

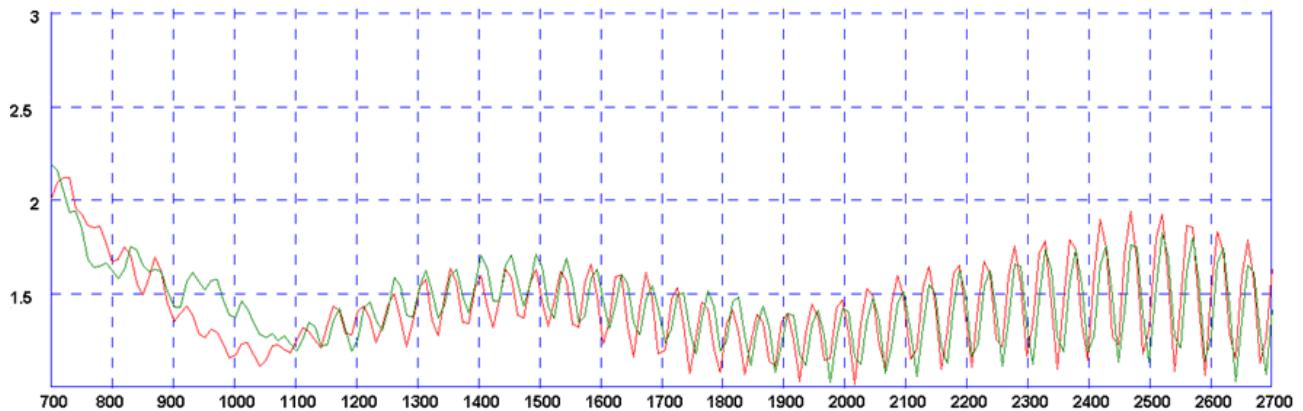

Technical Drawing - (DMM-7-27-2SP Variant)

LTE / Mobile Broadband

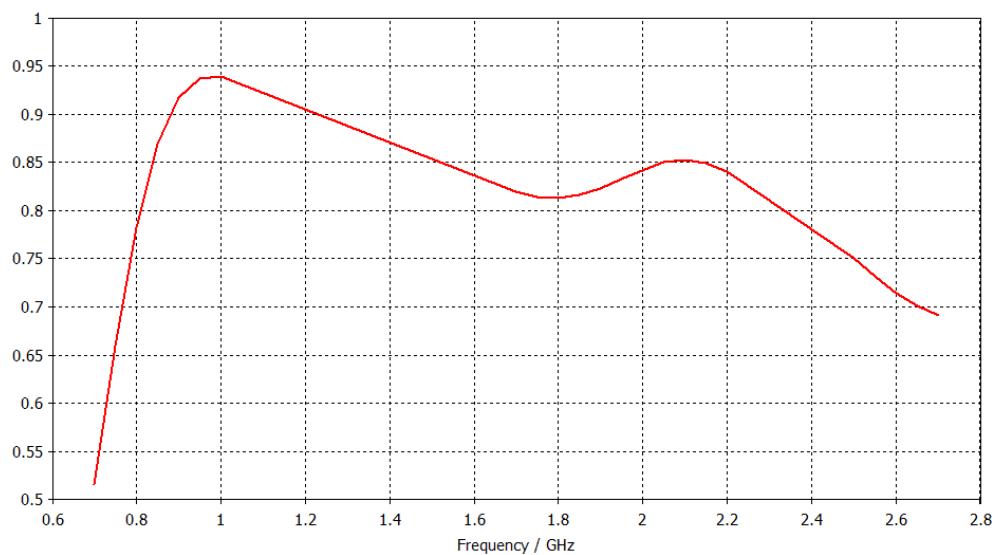

Portable MiMo Antenna

Typical VSWR Elements 1 & 2

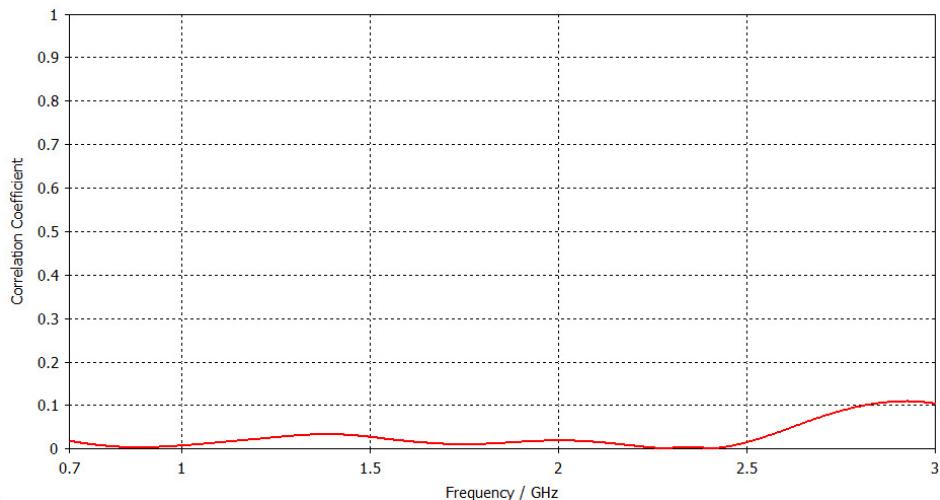

*VSWR measured with 2m of cable

Typical Element Efficiency

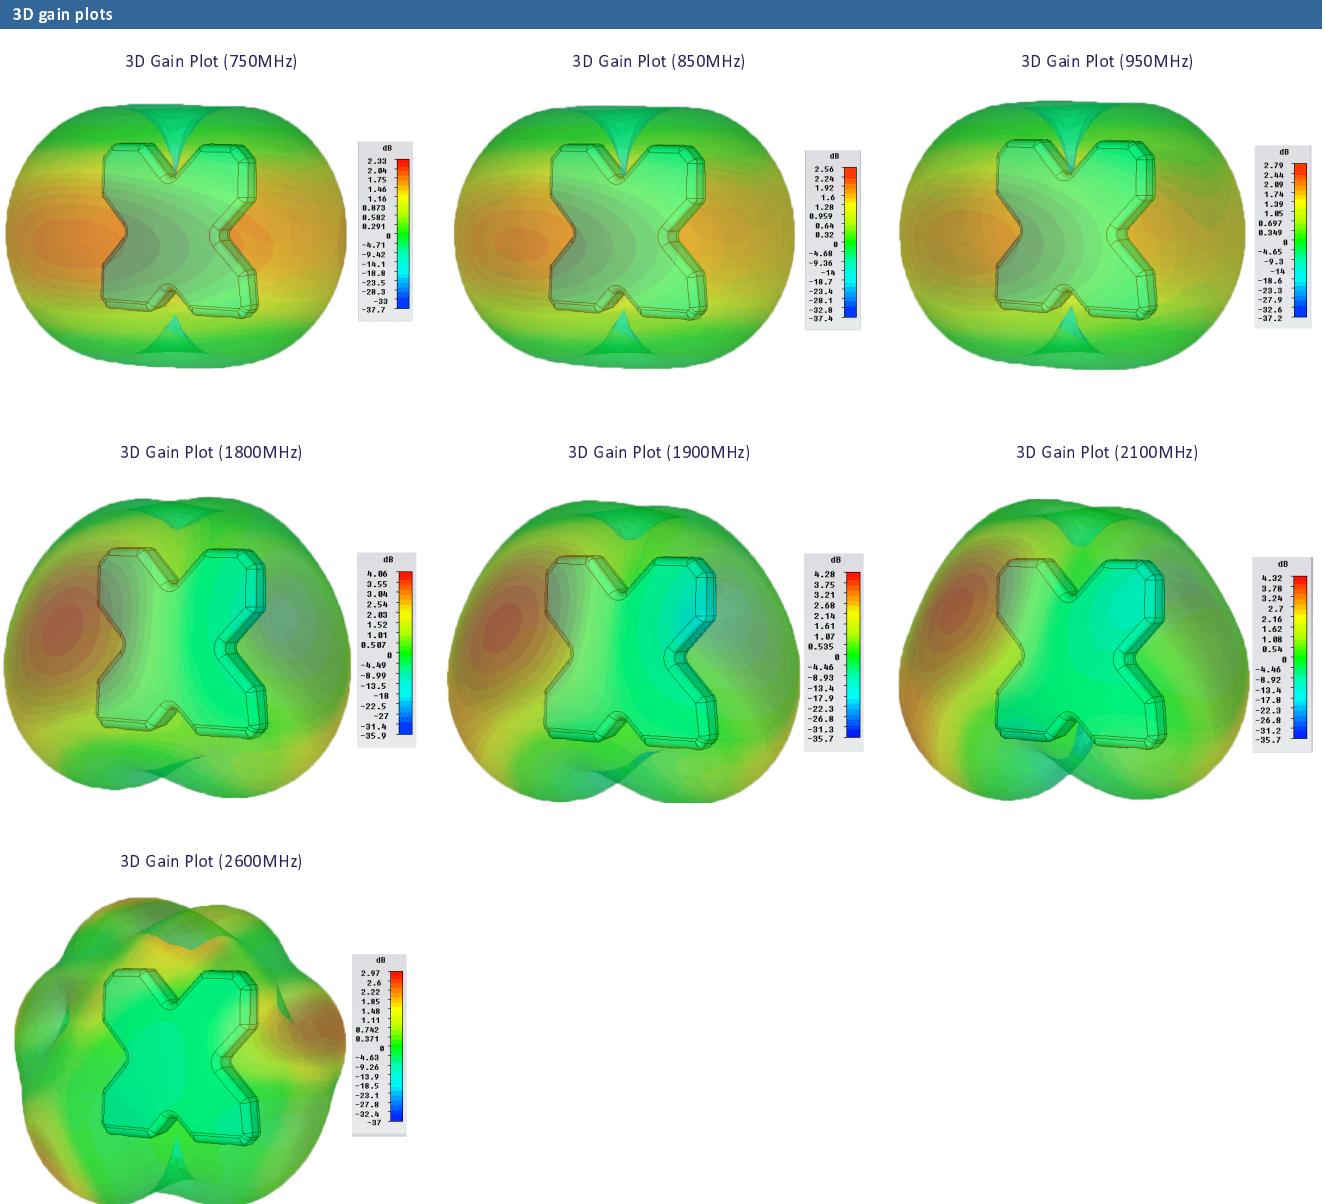

Correlation Coefficient
