

1-port power over Ethernet injector **GGM POEINJV2**

GGM POEINJV2 is 1 Ethernet Input (data only) port and 1 Output (data + power) port Power over Ethernet Injector that is designed for small or medium network environment to strengthen its network connection. This product can convert standard 12~24V/DC or 48V/DC power into DC voltage that runs over existing LAN cable to power up IEEE 802.3af compliant network accessory

By adding PoE devices, you can use an existing standard Cat-5 Ethernet cable to deliver both power and data where power source is difficult to obtain. It helps you reduce installation time and cost. Using the pairs 1-2/3-6 to deliver the PoE supply.

Specifications

- 1 Ethernet input port (data only)
- 1 Ethernet output port (data + power)
- Compliant with IEEE 802.3af
- Smart Plug and Play
- 12~24 V DC or 48 V DC Input
