

**1/2"L Flexible Cable stripping tool(BX-12L)**  
PRODUCT DATASHEET

Handlebar

**Technical parameter**

**Structure size**

Suitable Cable	1/2"L
Length of stripping line of outer conductor	17.5mm
Length of stripping line of inner conductor	8mm
Outer diameter of jacket	15.4-15.7mm

**Cutting blade specifications**

Parts	Material Science	quantity	K3
BLADE01	Cutting tool steel	3	5.21.50263
BLADE02	Cutting tool steel	1	5.21.50264
Hollowed out drill	PEI	1	7.3.1014

**Function**

- 1、Peel off the outer conductor and the inner conductor of the cable, and cut
- 2、Hollowed out insulation

**Operation Process**

- 1、Cut the cable head flat with a pipe cutter
- 2、Put the cable head into the hole of the stripping tool, use a power tool or a hand-held rotary tool,
- 3、Insert the hollowed out drill into the power tool to remove the cable insulation
