

WOOD BURNING SAUNA HEATER HARVIA 36 PRO

item number: WKP360 / WK360

models: WK360

HARVIA
Sauna & Spa

Perennial favorites for wood-heated saunas

- wood burning heater for large-sized saunas
- big stone space (60 kg) gives a good hot bath in medium-sized sauna
- feeling of fire. Cast iron door with ceramic glass
- easy to keep clean. Stainless steel air-flow spoiler, front panel and ash tray
- long lifetime. Strong body and the sturdy fire space cover ensure durability
- adjustable legs to facilitate installation and, for example, help in adjusting the height of the smoke outlet, and it can be equipped with a pipe mounted water heater.
- the outer casing of the stove is painted graphite black.
- chimney connections: at the top and rear (Ø 115 mm)
- Easy maintenance. Sweeping hatches in fire channels and big ash tray
- replaceable grill
